Professional Summary

Results-driven Product Designer with 6+ years of experience crafting user-centered digital products across web and mobile platforms. Proven ability to enhance user experiences (UX), develop scalable design systems, and collaborate with cross-functional teams in agile environments. Adept at user research, wireframing, prototyping, usability testing, and applying data-driven insights to optimize user engagement and conversion rates. Proficient in Figma, Sketch, Adobe Creative Suite, and design system management. Passionate about shaping innovative product solutions that align business goals with user needs.

Experience

Lead Product Designer (Contract)

StartHub – Pittsburgh, PA (Remote) | August 2024 – Present

Started as a volunteer designer, then transitioned into a leadership role, assembling and managing a team of two designers to build the StartHub Platform from the ground up.

- Leading UX/UI design initiatives for an educational platform for entrepreneurs, enhancing usability and accessibility for Web, iOS, Android.
- Developing user flows, wireframes, and high-fidelity prototypes.
- Implementing design systems and component libraries, ensuring consistency across web and mobile applications.
- Collaborating with cross-functional teams (developers, product managers, and stakeholders) to align design with business goals.
- Spearheading accessibility enhancements (WCAG compliance) to create inclusive digital experiences.
- Reduced design iteration time by 28% by establishing a structured design process and improving cross-team communication.

Web Designer

HiRez Films Production – Remote, USA | Jul 2023 – Aug 2024

- Designed and developed a responsive website for a video production company, improving brand identity and user engagement.

- Increased website traffic by 12% through user-centric design improvements and SEO best practices
- Collaborated closely with the client to define project scope, align design goals with business needs, and iterate based on feedback.
- Created wireframes, prototypes, and high-fidelity UI designs to establish a seamless user experience.
- Crafted UX copywriting to enhance content clarity, brand storytelling, and conversion optimization.

Product Designer

SberMegaMarket – Moscow, Russia (Hybrid) | June 2021 – March 2023

- Developed a universal product card template that improved content entry efficiency by 8 times, reducing time-to-market for new products.
- Designed and optimized SberMegaMarket's product management interface, reducing processing time for managers and increasing product listing efficiency by 15%.
- Developed and tested multiple iterations (MVP 1.0 → MVP 3.0), refining UX based on feedback and increasing user satisfaction scores.
- Led the API integration project for SberMegaMarket, allowing businesses to manage orders via API without accessing their personal accounts.

Product Designer

Tetrika Online School (Mail.ru Group) – Moscow, Russia (Hybrid) | June 2019 – June 2021

- Spearheaded the design and launch for Tetrika, an online tutoring platform, increasing user engagement by 27%.
- Designed a personalized dashboard, improving lesson scheduling and student progress tracking.
- Implemented UI changes based on competitor analysis, stakeholder interviews, and user feedback, enhancing retention and reducing confusion.

Education

- Bachelor of Fine Arts and Design – Moscow State Pedagogical University | May 2022
- Frontend Development – HTML Academy | June 2021
- UX/UI Design – Moscow Digital Academy | May 2020
